Arrival of Two Americans Who

Were Released ON CONSUL WILLIAMS' DEMAND.

Cuban Revolutionist, but the Other Whose Property Was Configuated, Asserts That He Was Innocent of Complicity.

NEW YORK July 26 -Antonio Ruiz Per dome and Manuel Vargas the two Ameri can citizen- who have been imprisoned in Cuba by the Spanish authorities, and who through the intervention of Consul Genand Williams, were released and deported from the country on the steam-hip Habina were landed in this city yesterday They had been detained at Hoffman's island over night as they had no certificates of acclimatization Both men praised Consul General Williams, who secured their release. Perdomo told a most remarkable story, admitting frankly that he had been active as a revolutionist. He

"I was the captain of a company of twenty-six men, banded together as revolutionists. We took an active part in the engagement in which General Salcedo, the Spanish commander, was killed and General Campos woulded. On April 5 my company was lying in ambush in some woods near Santa Clara, when a regiment of 116 men, under Lieutenant Nico Ruir. came up and attacked us. We killed six of their men and e-caped with not a man injured on our side. We were armed with Winchester and Mansseur roles supplied to us by Collins & Co., of Front street, New York Three days after the fight 1 was sleeping in a hammock some little distance from my company when a body of 115 men rode up, and with bullets flying all around me for some unknown and unnecessary reason I was placed under arrest and lodged in the jail at Remidios. There I was treated fairly well, and decent food was offered me. I preferred to pay and get better food from the outside. "On July 3 I was transferred to More Castle prison I immediately communicated with Consul General Williams, and the government a greed to release me provided they could instantly deport me from the country. Accordingly I sailed for New York by the first steamer arriving here. My property in Cuba, worth about \$500, was confiscated. My wife and two children I had to leave in Cuba, but they are coming up by the next steamer. My profession is civil engineering, and my home address is Concord and Adams streets, Brooklyn. The revolutionary movement in Cuba is spreading, and it they can hold out until October the revolutionists will come out the victors with out a doubt. Regarding Campos, it is generally understood in official and military circles that he is a prisoner of the revolutionists."

Manuel Vargas told a similar story. He

"On July 3 I was arrested in the streets of Remidios and taken to Moro Castle prison, where I was confined fifteen days. For what reason I do not know. No charge was made against mo. I never expressed sympathy even with the revolutionary party. I kept a coffee house and did some other work for Andrew Fisher, an Amorican dentist, who I understand is to be deported from the country today on a Ward line steamer. I have no family, My coffee house, worth \$1,300, was seized by the government officials. When I was jailed I wrote to Consul General Williams, who immediately investigated my case and demanded my release. The gov-

ernment officials put me aboard the steamer Habina b and for New York, paying my passage as a third class passenger. I paid \$9 extra, and came second

Dr. Webb's Claim & Just One.

UTICA, N.Y., July 25 -The forest, game and fisheries commission's investigation tour of the Adirondacks is completed. The tour will result in a pronounced state policy for the preservation of the Adirondack forests. The object of the tour was the inspection of 50,000 acres in the Beaver chase to settle Dr Webb's claim of \$154,-000 against the state. Twenty-one thousand acres of forest were flooded by the raising of the state dam in 1893, and Beaver river was rendered entirely useless for lumbering purposes. The committee is said to be satisfied with the justice of Dr Webb schilm.

PLAINFILD, N. J., July 26.-Sheriff George A. Dilt's served twenty of the most prominent men of the county with subpoinces. Killed While Resisting Officers.

HOBOTEN, N. J., July 26 .- After a battle of nearly an hour, during which he stood off three officers who were trying to arrest him last night, John Spellisy, of Union Hill, was killed in his own house. Spallisy was 43 years old and one of the most desperate men in this section of New Jersey. Last night he ended up a carousal by beating his wife, and when the officers' went to arrest him he opened fire, which was returned. Suddenly Spellisy sank to the floor bleeding from the neck, but he clutched the revolver until he died.

The National Esseball League Enfolned. CLEVELAND, July 26. - Catcher Jack O'Connor, of the Cleveland club, yesterday obtained a temporary injunction against the National League to prevent the collection of a fine of \$25 imposed by Umpire Murray on Tuesday last. The injunction also restrains the league from debarring O'Connor from playing if the fine is not paid within five days. O'Connor claims that the fine was unjust. The case will be heard on Aug. 15, until which date the injunction will hold.

CAPTAIN BECK EXCITED

He Openly Insults Nebraska's Congressional Delegation,

AND DENIES THEIR AUTHORITY.

The Agent of the Winnebago Indians Declares That the Flournoy Company Has Systematically Robbed the Indians, and Its Members Are "Liars and Scoundrels."

OMAHA, July 26.—Indian Agent Captain Beck and the congressional delegation had a stirring session yesterday, and violence was imminent for several minutes at the Winnebago agency. He offended the en-tire Nebraska congressional delegation in his office, and would have ordered the senators and congressmen from the room had it not been for Senator Allen. The proceedings began when Senator Allen stated that the two senators and three representatives of the congressional delegation of Nebraska had come for the purpose of informing themselves as to the condition of affairs. In reply to this Captain Beck made a short statement. He stated that the Flournoy company had systematically robbed the Indians, and that it was a corrupt concern generally. Cantain Beck said the members of the Flournoy company and every one of its friends and sympathizers were infamous liars and scoundrels.

Just as the captain finished John F Meyers, the treasurer of the company, entered the room. "You are not telling the truth and you know it," he said.

If a giant fire cracker had been exploded under the captain's feet he could not have been more excited.

"Get out of here." he cried, "get out of here. This is my office. I will not have you in it. I am master here. You have been arrested by the United States marshal and ought to be in jail. I will not have you here. Get out before I have you thrown out."

An exciting scene ensued. Senator Thurston remarked: "I wish to know whether or not this delegation, representing a majority of the members of the Nebraska congressional delegation, has to proceed without a repetition of such scenes as the one we have just seen enacted. We are amply able to preserve order without interference or assistance on the part of any one. If this delegation is here without right-the right of American citizens to know how their own affairs are being conducted-I, for one, am ready to retire

Captain Back jumped to his feet and exsitedly exclaimed that he did not recognize the authority of the delegation. He did not understand that it had any rights which he was bound to respect. It was not a committee empowered to act. It had no right to investigate him. He was responsible to the secretary of the interior. and him only. He would not be insulted in bis own office

Mrs. Beck, who had been sitting at the captain's back acting as a sort of advisory counsel, was also aroused. She did not address the congressional delegation, but in a voice loud enough to be heard by many she referred to the senator who had spoken as an insolent man and insulting meddler. She suggested to those nearest her that the cautain ought to order the

entire delegation out of his office. The silence which followed the scene was oppressive and Captain Beck again rose to his feet. "Sit down," said Senator Allen, and the captain sat down. The investigation proceeded without further trouble. Captain Beck submitted letters and telegrams to show that he had the anproval of the interior department in every-

Big Coal Strike Inevitable.

PITTSBURG, July 26 -At a meeting of the miners' officials here it was decided that a strike was inevitable in view of the fact that four states have expressed themselves on the price question. President O'Connor, of Illinois, figured prominently at the meeting. The miners have been notified not to return to work until after the general convention on Aug. 1. The program as now arranged is to inaugurate the fight at the Banksville mines, where the men have been asked to work for liftyfive cents a ton. It is said that a rate of sixty four cents a ton will be demanded.

Rentucky's Double Murderess.

BARBOURVILLE, Ky., July 25 - Rosa Gordon, who murdered the two women near Corbin, Ky., in a confession implieates three men, who she claims were at her house at the time of the crime, and who held Mary Southerland and Melizza Brown, her victims, while she disembowelled them. The murderess, who pleads self defense, is a small, bright appearing girl about 19, with keen brown eyes and short curly brown hair, thickly clustered about her head. Miss Gordon expresses herself as very sorry for the occurrence, but shows no fear.

Governor Morton Favors Organized Labor. Washington July 23.—At a meeting of the Paper Hangers' Association a letter was read from Governor Levi P. Morton. of New York, in which he expressed himself in favor of employing Union men, and stated that hereafter he would use all his influence to have all work performed by them. The governor declared that he was in nowise opposed to organized labor.

Double Murder in Florida.

WEST PAL BEACH, Fla., July 26 .- News reached here by a schooner of the killing at Lemon City of John Highsmith ex-tax collector of Dade county, and George Davis, his brother-in-law. The double murder was committed by Sam Lewis, a bartender. Lewis escaped and a posse is in pursuit. There is talk of lynching if he is captured.

To Legalize Pool Selling.

SPRINGFIELD, Ills., July 26.-Representalive Kicourse, of Chicago, caused a sensation by introducing a race track and pool selling bill in the house under the head of revenue. The bill is for an act taxing owners of racing inclusares and permitting and regulating pool selling and wa gering on horse races run therein.

THE SILVER DISCUSSION.

Mr. Harvey Declares There Is Too Much Credit Money.

CHICAGO, July 26 .- The Horr-Harvey silver dispute was continued yesterday afternoon. Mr. Horr opened the discussion and Mr. Harvey then resumed the discussion of the question of primary and credit money. The amount of gold in the United States he estimated at \$400,000,000 to \$500,-600,000, and of our credit money about \$1,090,000,000 This was too much credit money, he said, and accounted for the country's financial derangement.

Mr. Horr continued by saying that up to the present Mr. Harvey had not said a single word in proof of the actual subject of dispute Mr florr declared that Mr. Harvey's subject was not so much to build up silver as to pull down gold. The normal amount of money necessary for the transaction of the business of the country. said Mr Harvey, was \$4,590,000,000. As matters now stand he said that the banks were lending and getting interest on two dollars for every dollar in circulation.

Mr. Horr said that the question whether the banks were a curse to the country would be discussed in its proper place, and Mr. Harvey would probably be disgusted with himself when it was done, for having brought the matter up.

The debate finally adjourned at Mr. Horr's request until Saturday.

Abuses at Haverbill's Aimshouse. HAVERHILL, Mass, July 26.—Rumors which for the past work have been rife about mismanagement of the city's almshouse reached a climax last night, when, at a special joint meeting of both branches of the city government, an investigation into the management of the institution was ordered, upon motion of Alderman Allen. Mr. Allen stated that a delegation visited the almshouse. Among other things they found a semi-paralytic inmate named Daughton lying on a filthy bed under a tree. They asked Superintendent Savage to loosen the man's shirt. This was done and frightful sores were disclosed. A closer examination brought to light the fact that portions of the man's body were actually honeycombed with vermin.

No Pension for Kajulani.

SAN FRANCISCO, July 26.—The steamer City of Peking has arrived from China and Japan via Honoiulu, bringing the Honolulu advices to July 18. Princess Kaiulani will not get her pension. This was practically decided on the 11th inst., when the senate referred all pensions and permanent settlements to the regular session. The item was \$4,000 per annum, to commence with April last. Ministers Hatch and Smith made futile arguments in support of the item. Smith hoped the time would come when the legislature would vote an allowance to Liliuokalani. Minister Smith's remarks about the queen is construed to mean that she will soon be

|MRS. CONNER'S MURDER

Further Evidence to Fasten the Crime on H. H. Holmes.

IMPORTANT LETTERS DISCOVERED.

Holmes Wrote Letters to the Dead Woman's Relatives to Deceive Them as to Her Whereabouts-The Prisoner Will be Tried for Murder in Philadelphia.

CHICAGO, July 23.-More proof was found yesterday that Julia L. Couner is dead, and that she was made way with by H. H. Holmes. It was determined that she disappeared before June 0, 1892—an important factor in the search for her. As late as November, 1892, Holines, as shown by the letters which have been found, was writing her parents as to her whereabouts, and stating that she had gone to St. Louis. But on June 5, 1802, he wrote to her brother in law, Ira Vantis, of Waukesha, Wis., giving him a fictitious address as to her whereabouts in St. Louis. Yantis wrote back to Holmes on June 9, and this letter was found on Wednesday.

At that time Yantis had no suspicion that Holmes had made away with his sister-in-law, and supposed him to be her friend. This letter was written three weeks before the one in which I. L. Conner accused Holmes of breaking faith with him. The later letter refers to his daughter Pearl. From this it would appear that Mrs. Conner was killed first and the child

I. L. Conner, the hasband of Julia L. Conner and the father of Pearl Conner, both of whom are thought to have been murdered by Holmes, was in Chicago resterday, and The Inter-Ocean today publishes a long interview with him. He has no positive proof that Holmes killed his wife and child, but says he believes such to be the case. He does not know when the crime was committed, but thinks it was done in this city. Conner's story contains practically nothing but what has been published.

Last evening two well dressed women called on Chief Radenoch and told him that a 16-year-old girl, a daughter of wealthy and respectable parents, had become acquainted with Holmes during the fall of 1893, and afterwards disappeared. Now that Holmes' crimes have been exposed her parents believe that their daughter was one of his victims. Chief Radenoch will investigate their story. Until he has fully corroborated it, however, he says he will not disclose the girl's name.

Holmes to be Tried in Philadelphia.

PHILADELPHIA, July 26.-District Attorney Graham decisively announced this morning that H. H. Holmes will be tried in this city for the murder of Benjamin F. Pitezel in the Callowhill street house. In view of the fact that the district attorney uas said that Holmes would be tried wherever the strongest case could be made out against him, it is believed that the authorities here have recently learned more important details of the crime, which insure the accused man's conviction. Information as to whether or not this supposition is correct was refused.

The Youthful Matricide Held. London, July 26 - Robert and Nathaniel Coombes, aged respectively 13 and 11 years, who murdered their mother about three weeks ago by stabbing her while she was asleep, and lived ten days in the house with her decomposing body, were arraigned in the police court yesterday. The evidence developed that the elder boy, Robert, did the stabbing and the magistrate committed bin and the half witted man, Fox, who was arrested with the boys, for trial on the charge of murder,

and held Nathamel as a witness.

CHAMPION PROHIBITION ORATOR. J. Howard Moore Won That Title at a

Recent National Contest. "The land of the politician and the home of the sot," not the "land of the free and the home of the brave," is what the champion Prohibition orator calls America. His name is J. Howard Moore, and he is as firm in his belief that vegetables are the only things for a man to eat as he is that malt and spirituous liquors are the things a man ought not to drink, or to be permitted to drink. He is a graduate of Oskaloosa college, Iowa, but is taking graduate work in the University of Chicago and is president of the University Vegetarian club. He won the individual oratorical in the Prohibition club of the University of Chicago and then took first honors in the state contest of Prohibition clubs in Wheaton. Then, having demonstrated that he was the best temperance orator in Illinois, he represented the state's group of Prohibition clubs in the recent national contest in Cleveland and found

little difficulty in winning the contest and the honor of being called the champion Prohibition orator of the United

The title of Mr. Moore's successful oration was "The Scourge of the Republic." He made a strong argument against the liquor traffic and declared that it was sapping the lifeblood of the republic. He denounced the political parties for championing the cause of the saleon to gain the influence of the dealers in strong drink and was voted the best orator in the contest.

Prohibition and vegetarianism are not the only reforms that interest Mr. Moore. He is an ardent woman suffragist and has attracted some attention as a budding Prohibition politician in Iowa. He was once a candidate for senatorial honors on his party's ticket and is anxious to make reform work on the lecture platform his field of labor.

AN ELECTRICAL GIANT.

It Is a Ninety-six Ton Locomotive That May Revolutionize Railroading. Is the age of steam soon to give way to the age of electricity? Recent developments point unmistakably in that direction. In two places of late the electrie locomotive has succeeded the old time iron horse driven by steam, and there seems excellent ground for believing that in the near future nearly all transportation will be done by means of electrical power. The Baltimore and Ohio railroad recently placed in operation in its tunnel in Baltimore the most powerful locomotive ever constructed, and the power that operates it is elec-

This wonderful electric motor is 35 feet long and tips the scales at 96 tons. It is 14 feet high, and its four electric motors give it 1,440 horsepower. It is built to maintain a speed of 45 miles an hour for passenger and 15 miles an hour for freight trains and can drag a train of from 200 to 250 empty flat cars on a level track without starting a bolt. The power is communicated to the locomotive by means of a trolley arrangement similar to that in use on the electric street railroads.

The electric locomotive is designed solely for tunnel work and is favored for this task because it carries no coal,

THE ELECTRIC LOCOMOTIVE.

develops no steam, is smokeless and sootless and does its work without puffing and rowing like some steel monster in distress. It is built in two parts and hitched together like the tender and engine proper of an ordinary locomotive. There are eight driving wheels of steel that have tires 3 inches thick. The locomotive is designed to push or pull, and one end looks exactly like the other.

Sandboxes, airbrokes, headlights, a bell, a powerful gong and a whistle operated by compressed air are part of the equipment of the novel machine, which is said to be so simple that a bright boy can run it after ten minutes' practice. A wheel is twisted, the current enters the motors and the great machine begins to move as easily and as free from jars and joks as a ball in a bowling alley. The big motor was built by the General Electric company in Schenectady, N. Y., and in a recent tug of war against two of the largest steam locomotives easily stopped them when they were dragging it along at full speed and drew them in the opposite direction, although they resisted with all the power they could develop.

It Crazes the Letter Carrier. 3

Letter carriers in London sometimes become crazy because of the vast number of streets which have the same name. There are 264 Victoria streets, 241 Cross streets, 240 Albert streets, 212 Church streets and 191 Queen streets.

Precaution.

"In taking this albuminate of iron, continued the physician as he prescribed for a fair patient, "you must be careful nov to get it on your teeth." "Why so?" she inquired with mild sur-

"Because it will dreay them. Some take iron in capsules, but I think by taking it through a straw you can keep it from getting on your teeth." "Well, new, dector, suppose I should

leave my teeth up stairs while I take the iron in the kitchen, do you think there would be any danger?"

BIG SHOW IN DENVER [Heat

AN INTERNATIONAL MINING EXPOSI-TION PROJECTED FOR 1896.

Designed to Commemorate Two Great Mistoric Events and Demonstrate General Transmississippian Progress-Some of the Interesting Features In Preparation.

They are getting ready to hold an international mining exposition in Denver next year, and from all accounts every man, woman, child and dog in that beautiful Gem City of the mountains is bearing an active part in the preparations. This exposition will be much more

than a mere display of the mining resources of Colorado, for the products of all the mining states as well as those of Colorado will undoubtedly be well represented. Besides Mexico and South America have been invited to take part and have signified their intention of do ing so. Still further interest, in addition to that which so general a mining exposition should arouse, is given to the project by the fact that it is to commemorate the close of the first century since the purchase of the Louisiana territory to show the progress of the transmississippi country in its mining, agricultural, educational, manufacturing, historical and industrial advancement and to celebrate Colorado's twentieth anniversary as a státe.

The project was formulated in March, and at a meeting held in that month a board of 549 managers was created. These managers appointed an executive committee which perfected the incorpo-

ration of the International Mining and Industrial association. Among the directors of this organization are Governor McIntire, H. R. Wolcott, D. H. Moffatt, J. B. Grant, Frank C. Young, H. A. W. Tabor and others well known in Colorado. Since then the board of managers has been increased in number until there are 1,259 members, many of whom, as is proper in a state where the sexes are equal as to suffrage, are women, though on all the different organizations and boards connected with the promotion of the exposition but two women hold offices-Mrs. J. L. Routt, who is first vice president of the board of managers, and Mrs. James H. Platt, who is one of the subordinate vice presidents.

Early in the movement it was realized by the projectors that it would take what one of the Denver papers termed "a young fortune" to carry it through, but large sums have already been subscribed, Mr. D. H. Moffatt, president of the association, leading off with \$50,000, and there is now no longer any reason to fear for lack of funds.

For the site 120 acres of land in the southeast portion of what is known as City park and 30 acres of the school lands, directly adjoining, to the south, ave been secural. The principal exposition buildings will be put up on the 30 acre tract, while the 150 acres of City park ground will be beautified and devoted to a comprehensive exposition of the theory and practice of irrigation and the agricultural and horticultural

features of the exposition. The show will be opened on July 1, 1896, and will continue for six months. Buildings for the following named departments will be erected: Mines and mining, mechanical arts, manufactures, agriculture, live stock, liberal arts, archæology, ethnology and fine arts. Besides many additional buildings will doubtless be erected by states, counties and large exhibitors, and the installation of foreign villages will be encouraged. It is also expected that the federal government will erect a handsome building, and a number of the agriculthral colleges and experiment stations, branches of the department of agriculture, have already signified an interest in the agricultural and irrigation exhibits. By resolution of the Colorado legislature the states of the Union and the

nations of the whole earth have been requested to send representatives and exhibits. It is believed that Aranahoe county will appropriate \$100,000 and the city of Denver \$50,000 for exposition purposes.

Of course the mining exhibits will be chief and most interesting, and, surprising in many quarters, no doubt, the exlibits of gold will be quite as promiuent as those of silver mining. A feature probably not duplicated at any other exhibition ever held will be the mineral spring department, wherein samples of water will be shown from more than 100 different springs, "each one warranted not only to cure whatever is the matter, but also to be stronger in taste than any of the others." Then there will be a wonderful exhibit of gems. another of fruits and others of grasses, rhrubs, building stones and so on. It is proposed that the build ags shall not only be artistic in design and thoroughly fitted to the purposes for which they are to be creeted, but also permanent in character, so that the exposition of 1896 can be followed annually by other expositions, and the architects of Colorado are already hotly competing for the honor of designing these buildings.

The stock of the association is placed at \$1,000,000, divided into 1,000,000 shares of the par value of \$1 each. Every subscriber to this stock, which is nonassessable, is privileged to vote at every meeting of the association, and the stock is being generally taken up all over the state of Colorado.

FRIDAY, JULY 26, 1895,

Chairman Hinkley, of the Democratic State Committee, said, yesterday, that the committee would be called together within two weeks to fix the time and place of holding the State convention. Major Hinckley said it was possible the convention might be called before that of the Republicans and thought it would be held in Saratoga on Sept. 23.d.

The Springfield Republican has canvassed Western Massachusetts, The Republican find all this: "Increased earnings of employes, larger production, fewer shut-downs for repairs and none for lack of work, more extensions and more new mills build- DEADLY EXPLOSION OF FIRE DAMP

State Committeeman Barnes captured 162 of the 174 delegates elected in Albany, last night, and thus retains control of the organization. The anti-Platt men in many of the wards refused to participate in the caucuses, alleging that the machine had played a "snap" on them by calling primaries in advance of the usual time and before the State convention was called. The feeling is very bitter, and the prospects are that with the new Republican paper, The State, to brace up the anti-Platt faction, the fight against the Barnes machine will be continued, and it is possible that day. contesting delegates will be sent to the State convention.

THE REPUBLICAN RECORD. From the Brooklyn Citizen.

The Republicans went into power as opponents of one-man power. The late Legislature was bound hand and foot by Mr. Platt, and so evident was this fact that all the leading journals in the State were filled with denunciations of Mr. Platt, of the Legislature and its subservience to the Bose.

The Republicans went into power as civil service reformers. One of the first appointments of their G v ernor was that of Mr. Aldridge, a notorious politician, who has flagrantly violated the Civil Service Qaw. Moreover, this appointment cannot be excused on grounds of ignorance; for, aside from the fact that Mr. Aldridge's record was well known, Mr. Morton was repeatedly warned by the leading journals of his party, and the appointment was opposition.

The Republicans went into office the city of New York, and like measures. By strenuous efforts on the part of independent reformers, a few unsatisfactory measures were pa sed; most of the pledges were utterly broken,

The Republicans went into power tax rate fifty per cent. The have innumerable explanations of these misdoings, and it is a fact that the State has undertaken some new functions requiring increased expenditure, but these do not begin to explain the ircreased tex rate. This is the record of the Republican party. What do voters think of it?

> NEW FIELDS FOR WOMEN. From the Indianapolis Journal.

It was bound to come. The women who have been taking possession of newspapers for a day and getting out editions all by themselves for charity's sake have turned their attention to the other lines of business. Down in Rome, Ga., the other day, they took possession of the street railway system and pocketed the prcfits. They did not venture to act as Cemetery. The pots and plants were | motormen, but did transform themselves into conductors, and every man who wanted to remain in their good graces had to rice, not once, ut many times. If they were exact in the matter of making change it was contrary to the rule of women working for charity. At all events they made a good thing out of the railway, and are lo king about for new fields to conquer. Rome having set the example, other places will tax rate. They have increaced the the shees found in their possession fall in line, and a woman's day in railroads, dry goods and all other shops or moneymaking institutions will be the order of the season. And the newspapers, having stood their siege, will not say the gentle ladies

A Cow On the Roller Coaster Track.

Fred, Kelly and Phil, Baker were enjoying a ride on the roller coaster when their car collided with a cow that had got on the track. The cow was tumbled over the railing and down the bank. The front of the coaster was stove in and the boys, though badly scared for a minute, were not hurt.

Don't shoot Deer for Five Years,

Mr. Jacob Gunther has been posting, te-day, notices sent him by Game Protector Kidd warning the public against shooting deer in this or adj loing counties. The notices are posted because of the releasing of the deer from the Catskill deer park. Mr. Gunther helped catch some of these deer in the Adirondacke, two years ago.

The Band Concert—The Hollday Dramatic Club's Entertalument-Able to be Out-Will Challenge the Winners. From Our Regular Correspondent.

-In spite of the shower, which came up, yesterday afternoon, the attendance at the band concert, last evening, was large. As usual the music was most admirably rendered. The band concerts will be discontinued after September 1st, as in formers years. A large number came down from Mi_dletown and helped to swell the crowd.

-The Holiday Dramatic Club will present two farces at Music Hall, one week from te-morrow night, Aug. 3 The plays will be "My Uncle's Will" and a "A box of Monkeys." The proceeds will go to the Goshen library fund. There will be dancing after the rerformance. Tickets fifty cents, at Power & Co.'s drug store.

-William Farnum, who was kicked in the face by a horse and his jaw broken and several teeth knocked

out, is able to be out again. -Mrs. James Van Steenburg, of New York city, is visiting relatives

-There will be no band concert at Midway Park, to-night. It will be given, to-morrow night, in connection with the fireworks exhibition.

-The Goshen Athletics, who defeated the Columbias, Wednesday, will challenge the winners of the Florida and Walden game.

—Miss Barnard, of New York, is visiting Mrs. George W. Murray. -Surrogate Coleman will start next week for the West. He will be at St Paul, Minn., much of the time during August. Mr. Coleman's family will spend the month at their cottage at Indian Lake in the Adi-

rondacke.

THE FLORIDA BALL TEAM. Why It Was Defeated at Liberty and Why Is Kicked at Monticello,

The Florida base ball team arrived in town, to-day, from Liberty. They were defeated in the game with the ${f L}$ ibertye, yesterday, by a score of 14 to:8, but account for it this ways:

The Libertys imported four firstclass players—Westervelt, of the Orange Athletics, as pitcher; Cummings, of the Orange Athletics; Currie, of the New Jersey Athletics, as catcher, and Stewart, of the New Jer-

The Floridas made three two baggers, one home run and thirteen base hits off Westervelt, which they remade five runs off two lost balls in the first inning. It rained all through

In regard to their kick at Monticello the Floridas said they "would have been jays if they hadn't kicked." They were pelted with stones, apples and other missiles by the Monticellos "rooters" in a way so shameful that some of the citizens came to them and expressed their disapprobation. Wisner, of the Floridas, was knocked down with a

General Stanton Is as Expert With Weapons as With Cash. Thaddens H. Stanton, the "fighting

the rank of brigadier general, has handled millious of Uncle Sam's moncy under all sorts of perilous e ire u mstances, and has never lost a penny. He is

THADDEUS H. SPANTON. called the "fighting paymaster" because of his usual desire to carry his cash to the front and see whatever fighting is going on. Gencial Stauten was born in 1835, and ran away from school to join John Brown's party in Kansas. He engaged in nearly all the conflicts between the free soil and preslavery factions, and in 1860 went to Washington, where he embarked in the newspaper basiness. When the war began, he enlisted as a private in the District of Columbia volunteers, and later organized and became captain of n Iowa company, and participated in the campaigns of the army of the fron tier. Te became an army paymaster in 1939, and sorved throughout the war in

hat capacity. Upon the fall of Richmond he took \$550,000 to the city to pry the soldiers. and while stopping at a hotel several men who vale after the government's money attempted to enter his room in the night. He shot one of them dead. and the others to it to their heels. He remained in Richmond until 1870 at chief paymaster of the department, with the brover rank of lientenant colonel. He also had charge of the collection of the sate's taxe, and the payment of its expenses during the reconstruction peried. He was with General Crook during the Black Hills expedition in 1875, and the following year was Crook's chief of secuts as well as paymester. He was with General Merritt when that worthy out off a band of hostele Cheyennes on their way to join Sitting Bull and participated in several battles with the great Sioux chief's band. Wherever the soldiers went the "fighting paymaster" was with them, giving them their pay promptly and doing just as much actual fighting as any man in the field.

General Stanton carries his 60 years lightly and is an excellent type of the sturdy, active, grizzled veteran. He is very popular in a profession famous for its jealousies, and General Crook once said of him. "His entire army life has been a period of unselfish, untiring, intelligent and ofttimes heroic performance of duty."

Do you doubt that hundreds of such cases teme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal inalady, all other medicines with which they are acquainted. Nasty codliver oil and its fifthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain

A NOTABLE WEDDING.

The Recent Marriage of Ida B. Wells of Antilynching Fame.

The recent marriage at Chicago of Ida B. Wells to Ferdinand L. Barnett attracts considerable attention, owing to the world wide notoriety achieved by the bride in her crusade against lynching in the south. The engagement was the result of friendship growing out of business relations and ripening into love and was measurably due to the good offices of the late Frederick Douglass. He was a mutual friend of Miss Wells and Mr. Barnett. One day when he was in Chicago he said to Miss Wells: "Barnett is a fine gentleman. He likes you and will make you a good husband." Doug-lass told Barnett, too, that Miss Wells was a real nice girl for him, and so they

Miss Wells was born at Holly Springs, Miss., and is about 30 years of age. She lost her parents when a child, and her early life was a struggle with poverty in the support of a younger brother and

IDA B WELLS AND PERDIMAND L. BARNETT. sister and in the careation of herself. So auxious was the to obtain an education that she sometimes worked in the cornfields in order to care for those dependent upon her and payher tuition in school. Herearly education was received in an academy at Holly Springs and completed at Fisk university in Nashville. Her first journalistic work was done at Fisk, where she was connected with the college paper. Lezving college, she became a teacher and a contributor to new papers.

In 1888 she became editor of the Memphis Free Press. While on this paper she wrote an article on lynching which made her an exile from that city. She then spent some time in Philadel-phia and New York and later went to Chicago, where she met her husband, and through him received employment on his paper, The Conservator. In 1893 she went to England on a lecturing tour. Her patrons were the bishop of Manchester, Dr. Clifford, the Bapaist leader; Lady Jenne and other notables. Her public labors ended with a late lecturing tour on the Pacific coast.

Ferdinand L. Barnett is a Chicaga lawyer, of the firm of Barnett & Williams, and half owner of The Conservator, the second oldest colored newspaper in the world. He is a widower, aged 41 years, with two sons. He was a native of Nashville and was educated in Chicago.

Do You Know that Castoria is a purely vegetable preparation, and that a list of ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formule, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was occause Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 ments, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

lt is Injurious To Stop Suddenly

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notify you when to stop and your desire for tobacce vill cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to a solutely cure

TO WHOM IT MAY CONCERN.

This is to certify that I, William S. Sawyer of Atmntic. County of Cass. State of Iowa, havor Arminet. County of class, State of Town, nav-ing ocen an inveterate smoker of tobacco, bought three boxes of "Baco-Curo" Dec. 21, 1991. Began taking same according to direc-tions and can say that I am completely cured of the tobacco habit "Baco-Curo" is simply wonderful and I recommend it to all who are wonderful and I recommend it to all who are slaves to the tobecco habit and wish to be cured I am in perfect health and have not felt so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Hoping that this may do some one good and lead them to try this wonderful remedy, "Baco-Curo," I remair. Yours truly, "Baco-Curo," I remair. WM. S. SAWYER, Atlantic, Iowa.

Gentlemen.—For forty years I used tobacco
in all its forms. For twenty-five years of that
time I was a greet sufferer from general debitity and heart discuse. For fifteen years I tried
to quit, but couldn't. I took various remedies,
among others "No-To-Bac," "The Indiar Tobacco Antidote." "Double Chloride of Gold,"
etc., etc., but none of them did me the least bit
of good. Finally, however, I purchased a box
of your "Bacco-Curo" and it has entirely cured
me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains
of body and mud. Icould write a quire of paper upon my changed feelings and condition.
Yours respectfully, P. H. Manburty,

WHAT MR. ERAEMER SAYS OF "BACO-CURO."

AT ANTIC. Iowa. Feb. 4, 1895.
This is to certify that i. F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of eigarettes for more than two years.
About eight weeks and I bought three boxes of "Baco-Curo" I began taking it according to directions, and after taking one and one-half boxes, all the desire for cigarettes left me, and I have had no desire since. have had no destre since.

directions, and after taking one and one-half boxes, an the desire for eigenetics lett me, and a have had no desire since.

I can heartly recommend "Bede-Chro" to all who are slaves to the eigenette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes, I could not remember anything; could not study, unless under the influence of the drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the craying for eigenettes in me and save your young life. Restore yourself to manhood. You will feel as though you had escaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the matter with me, until informed by the agent. He told me what was the reason bound in cigarettes. The not believe him at first, until he explained the action on the system.

The thirds the goods and thank God and all concerned. I am a sound person to-day. Hoping the this may reach the unfortunate cigaretts. The main. Yours respectfully.

They tell a story in Dalton of a recent revival meeting in one of the rural districts of Whitfield county. In the middle of the services the preacher said:

"Will Brother Smith please lead in Seven men arose and began praying at

once.
This embarrassed the preacher, and he

said hurriedly: "I mean Brother John Smith!" At this announcement one sat down,

and five more got up and began praying. The preacher saw his mistake, said nothing and let the 11 pray it cut among themselves.—Atlanta Constitution.

A Seaside Idyl.

She was a romantic maiden of 19 summers in yachting cap, flannel suit and

white canvas shoes. The manly youth who sat by her side wore a white yachting cap, serge coat. negligee shirt, white duck trousers, turned

up at the bottom, and yachting shoes. They were gazing on the silent sea, which lay like molten silver in the moonlight, crossed and recrossed at intervals by the specterlike sails of coasters and pleas-

ure boats. It was an hour, an hour for love, For love and calm delight.

And the moon looked down from her realm eveda

With a smiling eye that night. They sat in blissful silence. It was not

time for speech. Nevertheless the thoughts of the heart will find their way to the lips if they are given half a chance. The maiden gently broke the silence

with a whisper:

"Algernon." "Marguerite."

"What a lovely night!"

"Heavenly." "An ideal night for a love scene. A

maiden with a youth at her feet imploring her to consent to be his bride."

Algernon gazed upon her with smiling fondness in his eyes, gathered her to his arms, and Marguerite was engaged for the seventh time this season. - Boston Courier.

A missionary's wife. Mrs. Paton, had been very ill on a lonely island in the Pacific, and when she recovered sufficiently to write to her friends at home she thus described one of her experiences:

When I was able to take an intelligent view of my surroundings, this is what I first remember seeing:

John (her husband), sitting by my bedside, with an old straw hat on the back of his head and a huge tin basin between his knees half full of what tasted like very thin, sweet porridge, with which he was feeding me lovingly out of the cook's long iron spoon.

He assured me that it was water gruel that he had got into the way of making it nicely now, but that he could not find a

clean dish on the premises to put it in. He was so proud of his cooking that I asked for the recipe, and you have it here: Equal parts of meal, sugar and water-a cupful of each for one dose; boil all together till there is a smell of singeing, whereby you know it is sufficiently cooked! -Youth's Companion.

How Liberal Minded He Was.

They were arguing upon the question of whether women should adopt bloomers for a cycling costume, when the one who was in favor of them doing so remarked:

"You don't seem to think a man has any right to his own opinions in a case

"Yes, I do. Any man has a right to his opinion and to the expressing of it too. We who object to our women folks wear ing bloomers are the most-liberal minded men in cycling, but if I were one of the Siamese twins and my brother was to say anything in favor of bloomers I'd borrow an ax or a saw and cut loose from him on the spot. The meadow beyond "Harlem Park," in which David R. Miller has been making hay, this week, used to be infested with snakes, and when the Everett family owned the farm it was known as the "snake meadow." It was usually the last field mown, and it was believed that the snakes congregated there from all parts of that and adjoining farms, in the latter part of July, to look over the papers, see what sort of a season's work the snake liars had got in, talk over the affairs of the country and concert plans for ameliorating the condition of the snakes in other less Tavored localities.

Since Mr. Miller has owned the place, however, these enake conventions have been discontinued, and making hay in the "snake meadew" has been attended of recent years with no more exciting experiences than having on other parts of Mr. Miller's large plantation.

When Mr. Miller knocked off work yesterday to go to the picnic at Mid-Way Park, he gave his men orders to draw in the hay that was in cock in the meadow. When he returned. about 6 o'clock, he found that nothing had been done. He was very angry, and lost no time in getting to the meadow to see why his men had been loafing.

The men were sitting in the empty hay wagon and were evidently much demoralized. To Mr. Miller's excitad inquiries as to why they hadn't drawn in the hay their only answer was "snakes." Finally they managed to explain that when they reached the meadow after dinner, they Tound it so overrup with snakes that they were afraid to move. Mr. Mil-Ier hooted at the idea, and although he had on his picuic clothes said he'd "help them get in one load anyway, for he'd never get to work on that fafter having 'job on Highland avemue if they puttered around that way," and seizing a fork he began pitching one of the haycocks into the wagon. A number of snakes had taken up quar ers for the night under this particular baycock, and as the bay went into the wagon the snakes began to wriggle out of it and drop back around Mr. Miller's head in a very nerve-trying manner. and when a little garter snake struck him on the neck and disappeared down his back, Mr. Miller dropped his fork and struck a 2:10 gait for the house.

This morning, when an Argus remorter made his daily visit to Mr. Miller's bay field, work was going on as usual and there were no snakes in sight nor were any found under the haycocks.

Mr. Miller said that he did not gnind a few snakes, but when there were more spakes than hay in a cock he was a quitter, even if he never got Highland avenue fixed.

One of the men, whom Mr. Miller wouches for as entirely reliable and in every way truthful, gave the Angus man the following account of what happened in Mr. Miller's hay field, yesterday afternoon:

and was just gettin' ready to go to drink for three days. At the exwork when we saw three big black snakes wigglin' along. We sot out a pool in the pasture. She was to chase 'em an' followed 'em till we | thrown down, her lege were tied and come near a big oak tree an' then we stopped quick, I tell you, for such an | near the edge of the pool. She had aggergation of snakes we never saw bafore. There was all kinds, black snakes, milk snakes, garter snakes, noticed that she was choking. In a pilote, blowin' adders, hoop snakes and the Lord knows how many other kinds, all settin' on their tails and | dent immediately grasped the head talkin',--(hat is hissin', at unat. The biggest black enake I ever see wusleamin' against the trunk of the free an' seemed to be a-bossin' the job. After a while, about a dezen big ena es broke away from the gang about the tree an' strikes the liveliest kind of a snake clip across the field. We followed 'em an' I'm an Alderman if they didn't go over to that piece of road Mr. Miller owns on Highland avenue an' marect it, gettin' up on the felices an' eightin' along it to see it better When they come to that bridge with holes in it they acted mai like. After a while they went back to the gang of snakes ander the tree in the meadow. I don't know snake language, but judgin' by anaka actions they made some fort of a report un' then such s-hissin' and a-spittin' time was never seen or heard before. Seemed asif every snake had somethin' to gay and was e-sayin' it all at onst. I don't know for sure, but if I was a-bettin' man, which I ain't, seein' I frelong to North Ead Mission, I'd bet them snakes was a caucusin' about that Highland avenue street that Mr. Hiller's ag in' to fix after hayin', an' if he dea't hear from them snakes before he does from the Common Council, I don't know nothin' about etakee."

A SALE ADJOURNED.

The Condensery at Deckertown Under the Hammer-Many Frominent Milk Dealers Present-Sale Adjourned to July 30.

There was a large attendance at the sale of the condensery property, at Deckertown, yesterday, among the prominent milk dealers present being the following: Henry S. Pound, I C. Jordan and J. B. Kimber, Middletown; C. H. Tuthill, Unionville; Captain Ryerson, Deckertown; J. M. Horton and Harry Horton, of New York; J. A. Howell, Goshen; O. G. Pierson. Warwick; Captain Bailey, Glenwood; W. W. Mills, Scranton, Pa.; J. W. Lewis, New York.

The bidding was started at \$12,000 by Mr. J. M. Horton, the well-known ice cream manufacturer of New York. The bids were finally run up to \$15 000, when it was decided to adjourn the sale until July 30, at 1 p. m., when the property will posi- Lake as a result of the labors of Rev. tively be sold.

FELL EIGHTY FEET.

A Darky Who Was Evidently Not Born to be Killed by a Fall

Ira Brown, a colored ball player of Port Jervis, alighted from a coal train on bridge No. 2, west of Port Jecvis, Wednesday night, and fell between the planks to the water, ashore and walked to his home, his only injuries being some slight bruises sustained by striking some of the bridge braces in his fall.

Several others have fallen from this bridge, but Brown is the only one who escaped with his life.

WALCEN VS. FLORIDA.

Much Interest Manifested in the Match Game of Ball to be Played at Goshen

The match game of ball to be played on the grounds of the Goshen Driving Park. July 30th, between the Walden and Florida teams, will undoubtedly attract the largest crowd ever seen at a hall game in Orange county. The \$50 a side, which the clubs will play for, will be only a drop in the bucket to the dollars that will change hands on the result. Over \$200 has already been staked by Florida parties and it is said that they still hav- a few ducats left. Both teams will be in the best possible condition and fit to play the game of their lives. The managers have shown good judgment in selecting Gosher as the place for playing the game, as it is centrally located and in the heart of the ball-fever-stricken district.

SNAKE IN A COW'S STOMACH.

of a Valuable Jersey. From the Binghamion Leader.

Gulf Summit, has a fine herd of Jer- follows: eey cattle. Three months ago the pride of the herd, a cow, was taken ill. She was clearly "off her feed," and gradually became poorer with each succeeding week. All the dairy remedies were exhausted to no purpose. A dezen or so veterinary eurgeons and cowologists literally were at 8-a concerning the case. A young medical student from Fhiladelphia, elected representatives to the Grand who is summering in the vicinity, Lodge and Mr. Davy was recomhad an idea and it was put to practi- mended for Lodge Deputy. "We got to the field about 10'clock | cal use. The cow was not given piration of the time she was taken to her head was fastened to the ground been in this position for nearly half an hour, when the assembled party moment a strange head appeared from her mouth. The medical stuwith a pair of tongs, gave a long pull and a strong pull and a large milk snake, seven feet long, lay writhing upon the ground. It was at once dispatched. The cow was released, given kind care and at once commenced to recover. The case will be reported to Secretary Mor'on of the Agricultural Department, who is said to be an eminent cowologist.

Another Wreck at Newburgh June.

Five cars of a west bound Erie freight train were derailed, yesterday afternoon, at precisely the same spot at Newburgh Junction where the Turners local was derailed, Wednesday night.

The cars were scattered promiscuously over both tracks, and several hours' time was required to clear the tiacks.

That Tired Feeling

Is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood, and in this condition it is especially liable to attacks of disease. Hood's Sarsapaulla is the remedy for this condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills act easily, yet prompt ly and efficiently on the bowels and liver. 25c.

A MILK FAMINE,

Only Half the Usnal Quantity Now Sent to Market-Buyers Willing to Pay Almost Any Price.

Owing to the dry weather and its effect upon the grass the milk supply is falling off rapidly and a milk famine is feared by New York dealers. Wednesday night, when the Erle milk train reached Jersey City, there were buyers from the other roads, beside the city dealers. They were willing to pay almost any price for milk, the lowest offer made being \$3 per can. Men on the milk train report that in most of the dairies carried by them the supply has fallen one-half, and in some instances even more.

KANSAS! BABY CITY

Cured Distiguring **ECZEMA** REMEDIES Our baby when three weeks old was badly afficied with Eczema. Her head, arms, neck, limbs, and nearly every foitt in her body was raw and bleeding when we concluded to try CUTICURA REMEDIES. We began with CUTICURA (ointment) and CUTICURA SOAP, and after the first application we could see a change. After we had used them one week some of the sores had healed entirely, and cased to spread. In less than a month, she was free from sales and blemishes, and to-day has as lovely skin and hair as any child. She was shown at the Grange Fair, and took a premium as the prettiest haby, over sixteen others. Mr. & Mrs. PARK, 1609 Belleview Ave., Kan. City. Sold everywhere Potter Dauga Chem. Corr., Boston.

A CHILDREN'S SUMMER REMEDY.

Mother Gray, a New York Nurse, Gives Middletown Mothers the Benefit of Her Experience.

There is a remedy for children's ordinary summer ills, known at the drug stores as Mother Gray's Sweet Worm Powders, which is very popular among Middletown mothers who have used this medicine for the past four seasons, Mother Gray, for many years a nurse in the Children's Home in New York, the originator of these powders, devoted the best years of her life to treating the masy children's ailments which so often came to her notice in her capacity as nurse. The result of her experience she has given to the world in her Mother Gray's Sweet Worm Powders. These powders are now placed in all the Middletown drug stores, and mothers everywhere use and praise them and tell other mothers about them. They cure feverishness, diarrhoea, bad stcmach, headaches and all bowell troubles. They clear se the stomach and bowel-, and f worms exist positively destroy them, and by cleansing the system do the grasshoppers in this county like unto | child good in any event.
